

Application No. 10/526,202
Paper Dated August 24, 2006
In Reply to USPTO Correspondence of February 7, 2006
Attorney Docket No. 0388-050627

REMARKS

On August 9, 2006, a telephone call was received by Applicant's representative, Examiner Duverne. Examiner Duverne indicated that the claims were in condition for allowance. However, the Examiner further indicated that a Supplemental Amendment would need to be filed to correct minor informalities in the specification.

Specifically, the Examiner has indicated that the Brief Description of the Drawings section of the specification should be amended to include an individual description of Figs. 5a, 5b and 5c instead of a single description of Fig. 5. Likewise, the Examiner requested that the Brief Description of Figs. 6, 8, 9 and 10 be amended in a similar manner. The Examiner further requested that the Best Mode for Carrying Out the Invention section of the specification be amended to include references to Figs. 5a, 5b, 5c, 6a, 6b, 8a, 8b, 9a, 9b, 10a and 10b.

The Applicant believes that the above amendments to the specification remedy the Examiner's concerns. Accordingly, allowance of the above-referenced application, including pending claims 9-23, is respectfully requested. Should the Examiner have any questions regarding any of the foregoing, the Examiner is invited to contact Applicant's undersigned representative at the telephone number provided below.

Respectfully submitted,
